

WHO WE ARE

FLUID Project Group Pty Ltd operate in South East Queensland to service the growing needs of the Water and Wastewater industry. FLUID's head office is located on the Sunshine Coast, but servicing all of South-East QLD. FPG consistently provide a high level of support to our valued clients, contractors and utilities.

"Our people make the difference between getting the job done, and getting it done well"

At FPG, we pride ourselves on our core values, along with our ability to deliver complete packages for our clients, from inception to completion. Our timely and value for money service comes with the highest standard in safety and quality. Our employees have valuable experience in the Water and Wastewater industry, having worked with a number of large and remote councils and utility companies. We take pride in supporting the communities within our project networks by employing and purchasing locally, whilst being involved with community causes and charities. We continue to build long term relationships with clients and nurture a team approach to excellent project outcomes no matter the size.
